## Education

---

12/2016  
Storrs, CT      Bachelor of Science in Computer Science, *University of Connecticut*  
Bachelor of Arts in Economics, *University of Connecticut*

## Experience

---

- 3/2019 - 9/2019  
Hartford, CT      **Software Engineer, Optum**
- Maintained and developed new features for a React-based, in-production Behavioral Health Provider Search portal
  - Developed unit tests for the UI codebase using Jest, Enzyme and React Testing Library, and integrated TDD into the development process
  - Incorporated accessibility best practices into the development lifecycle
  - Collaborated with developers located across multiple locations as a part of a DevOps team to deliver efficient solutions
  - Used Jenkins to create a CI/CD pipeline to automate integration and deployment processes
- 3/2017 - 3/2019  
Milford, CT      **Web Developer, Innovative Display and Design**
- Designed and developed a client-facing inventory management web application using C# and the ASP.NET MVC framework
  - Communicated with key stakeholders within the organization to decide on features to be built and prioritizing them
  - Used code-first approach with Entity Framework to design and create database tables
  - Developed the front-end of the web application using ReactJS.NET
  - Designed and implement a responsive and user-friendly interface using Kendo UI
  - Maintained and supported the legacy system
- 6/2015 - 9/2015  
New York, NY      **Teaching Assistant, Girls Who Code**
- Led instruction for the Summer Immersion Program curriculum on various topics such as JavaScript, CSS, Python and Introduction to Algorithms and Data Structures
  - Collaborated with the teaching team to modify the curriculum as needed to fit the needs of students of different skill sets
  - Served as a mentor and leader to the students
  - Tracked students' progress throughout the course and administered evaluations to assess students' understanding
  - Coordinate with the sponsor company to ensure fluidity of the program
- 1/2015 - 6/2015  
Storrs, CT      **Web Developer, University of Connecticut**
- Maintain a FileMaker database for the Historical Costume and Textile Collection
  - Develop and launch the Virtual Museum for the UConn Fine Arts Digital Media Archive website in PHP using the FileMaker API
  - Shoot high-res 360 degree photos of historical costumes for the Virtual Museum
